Subject: Microsoft Settlement

My name is Chris Striker, and I am a consumer interested in the case concerning Microsoft. I want to register my disapproval with the case, and consider it imperative that nothing whatsoever be done to Microsoft. Nothing less than a quick dismissal of the entire case will be satisfactory. America cannot afford to spend time or money crippling companies, and I certainly don't want such actions performed by the government in my name with my money. Lay off. Let the competitors compete.
